Dr. Kingley, the inventor of this valuable medicino, from his knowledge of the human system derived from a long and extensive practice, has arrived to the conclusion, that the great and Drimary cause of most diseases in a decargement in the functions of the liver; or in other words an in-

cressed or diminished recretion of the Bile.

So well is this understood, that it is common for persons to say when they feet unwell that they are bilious, meaning that they have too much bile in the stomach. On the other hand, when the flow of bils is diminished, the process of digestion is imperfectly performed, the patient becomes weak and emaciated, because nourishment contained in the food taken into the stomach is not properly extracted, and the fond is ejected in a ctude state. Dr. Kingley is confi-dent that the famous Hygean Theory, so called that ,'impurity of the blood is the cause of all diseases,' is a great absurdity. Every one who reflects upon the subject a moment, will perceive that impurity of the blood is a secondary not a primary complaint the effect, and not the cause of the disease. When the functions of the liver are deranged, and the flow of bile increased, it is often taken up by the absorbent vessels and carried into the circulation, and becomes mingled with the blood as in Jauudice, when patient shows it in his countenance. Now this impurity of the blood is caused by an increased flow of the bife, and to remedy in you must correct the sceretion of the liver and restore it to a healthy state. Dr. Kingley has spent much time in experimenting with different vegetable medicines, for diseases of the liver, and now offers his Universal Family Pills as the best, most convenient and cheapest medicine that cun be proposed for general way i with in offering them to the public, be is actuated more
